F-U-N

By ASH FOXX

I can't wait 'til I get home
I've been thinkin' 'bout ya baby now for way too long.
I get so sick of this 9 to 5,
I ain't lyin', can't deny I'm simply tryin' to get by.
That's alright, I've got a remedy
and the two main ingredients are you and me.
The night is hot and so are you.
Tell your mom and dad you won't be back until the night is through...

CHORUS

Let the fun begin, a little F.U.N., well get it any way we can.
Let the fun begin, a little F.U.N., and then we'll hit it all again, come
on....

All dressed up, we won't slow down.
Gonna take it to the limit when we get to party town.
Gettin' off on the things that we do,
movin' to some boogie woogie, would you like to boogie too?
We'll get down on the dance floor...
wait a minute baby, make it shake a little more.
Buckle up and hold on tight,
and let let your red hot fire lick my stick of dynamite, and... (CHORUS)
