CONSPIRACY

By ASH FOXX

The U.S. government is such a joke.

And there ain't nothing holy about the Pope.

Close your eyes so that you can see the other side of reality. (The earth is flat.)

Man ain't never set foot on the moon and we damn sure didn't come from a baboon.

CHORUS

Take a real close look at reality,
you may not see what you think you see.

You go to school for fools to rule your mind.

Too blind to see how the blind mislead the blind

Close your eyes so that you can see the other side of reality. (The earth is flat.)

Man ain't never set foot on the moon and we damn sure didn't come from a baboon.
